Structured MBA Training for Professional Development

The Master Builders Association of NSW (Hunter Region) Training Department provides training and education for the 'continuing' professional development of its Members and the building and construction industry in general. The Training Calendar 2011 describes the structured training programs we have put in place for the coming year.

There are also information sheets and flyers available on each course.

MBA Training is structured to help you

- Run a building / construction business more efficiently
- Develop cost-effective business management practices
- Extend industry skills and build a career path
- Keep informed on changes that affect you and your business
- Understand legislative and other regulatory changes
- Apply theoretical knowledge to real life situations
- Maintain and update skills to ensure 'continuing' professional development (CPD)
- Show competence as an industry professional

In-House Training Solutions

The MBA Training Department can also deliver tailored programs to suit your business. We can help identify particular training needs and organise the training using your staff, external trainers and MBA trainers, as appropriate. In-house training is more affordable than you might think and is a good option if you have more than ten participants for the training, and if you would like to tailor the training by incorporating your own company policies and information into the package. For further information, contact the Training Department on 02 4953 9400 or email ashleeb@mbansw.asn.au

We have delivered very successful tailored training to our members in the following areas:

- Waterproofing Seminars
- Building Code of Australia (emphasis on Vol 1 or 2 depending on needs)
- Team building, leadership and communications
- Security of Payment and other legal issues
- Site supervision

There are solutions to all your industry training needs either through our trainers, staff or by making use of our unparalleled access to the best building and construction professionals in the business.

Dates and venues are often updated, so please do not hesitate to contact us by logging onto our website: www.newcastle-mba.com.au or by calling the MBA Newcastle office on 02 4953 9400.

Pay Administration Course

This course aims to help Builders, Contractors & Sub Contractors adjust their Pay Administration practices to reflect the changes due to new legislation. Attendees will also be updated on taxation, workers compensation, superannuation and rehabilitation.

Date	Time	Venue	
TBA	8.30 am – 4.30 pm	MBA Newcastle Office	

Bonded Asbestos Removal

The past use of Asbestos in the construction of homes and commercial buildings has now proven to be a potential health hazard. Under current NSW legislation, specialist training is required for those who wish to remove Bonded Asbestos materials. It is the employer's duty of care to ensure that all employees undertake specialist training before any removal work is conducted. The course is broken into 2 parts, with the second part being the nominated supervisor section and has been specifically designed to provide instruction in the safe removal of Bonded Asbestos products. At the conclusion of the course, participants will comply with WorkCover and Local Government best practices for bonded Asbestos removal, as well as legislative requirements.

Bonded Asbestos Removal

½ day Price: Members: \$250 Non Members: \$280 CPD Points: 6

Date	Time	Venue
22 Feb, 22 Mar, 18 Apr, 24 May 21 Jun, 19 Jul, 23 Aug, 20 Sept 25 Oct, 22 Nov, 7 Dec 2011	8.30 am – 12.30 pm	MBA Newcastle Office

Assessment Process (Recognition of Prior Learning and Current Competencies)

For those with significant trade and industry experience, you can be assessed against the criteria for this course. Assessment is conducted by the MBA Assessment Cell and involves submission of some or all of the following: previous qualifications, work based evidence, site visits, written assignments, verbal questioning and tests. If you have a carpentry, bricklaying or civil engineering background and over 6 years industry experience, contact the MBA Office on 4953 9400.

*All licensing candidates should contact the Office of Fair Trading on 13 3220 to establish their eligibility for licensing.

Diploma of Building & Construction

Face-to-Face

The new face-to-face Diploma of Building and Construction (Building) program is designed for those individuals, currently operating within the building and construction industry, whose skills and knowledge can be recorded and assessed against the required units in the Diploma. The prequalification for this program is the Certificate IV in Building & Construction (building) or BCG40106 which entitles you to 7 units in credit for the Diploma of Building and Construction (Building) CPC50210.

Course Aim

To prepare individuals for the management of medium rise and commercial projects.

What you will learn

- Management of a building project for medium rise and commercial projects.
- Estimating projects to ensure business success.
- Risk reduction and safe business practices.
- The underpinning knowledge of building practices.

Recognition of Prior Learning

Experienced people without formal qualifications can be assessed through the recognition process from Certificate III to Diploma level building qualifications.

The Master Builders Training department can offer differing pathways to participants wishing to complete any of the following qualifications –

Certificate I In General Construction
Certificate II In General Construction
Certificate III in Carpentry
Certificate III in Brick & Blocklaying
Certificate III in Concreting
Certificate III in Solid Plastering
Certificate III in Roof Plumbing
Certificate III in Construction Waterproofing
Certificate III in Wall & Ceiling Lining
Certificate III in Wall & Floor Tiling
Certificate III in Roof Tiling
Certificate III Flooring Technology
Certificate III in Shopfitting
Certificate III in Painting and Decorating
Certificate III in Furniture Making (Cabinet Making)
Certificate III in Engineering

For all enquiries please call the MBA Training Department on 8586 3555.
